### Windsor and Maidenhead

- Windsor and Maidenhead only provide free transport to the nearest denominational school for children from low income families (i.e. entitled to free school meals or receiving full working tax credit).
- The following restrictions apply to students from low income families applying for free transport. Some parts of Maidenhead are closer to St Bernard's High Wycombe and not entitled to free transport to Slough. Some parts of the Borough are nearer to the Salesian School in Chertsey and so not entitled to free transport to Slough. Much of the borough, including Maidenhead is closer to St Joseph's than to St Bernard's and, though St Bernard's students from these areas have been given free transport in the past, this practice ended in

September 2006 following a ruling by the ombudsman so children nearer to St Joseph's no longer receive free transport to St Bernard's. The distance is measured by the shortest safe walking route so it is difficult to estimate which is nearer to students living in Windsor. Most of those living east of the Windsor relief road are currently regarded as entitled to free transport as going to a place at which it would be safe to cross the relief road would make St Joseph's further than St Bernard's.

- Question and answer booklet gives details of policy. Obtainable from W & M Education Dept.
- If you need to check which is your nearest Catholic school, ring transport co-ordinator on 01628 796666.
- The Windsor coach is operated by a parents' group. Contact Claire Allison at [stbwindsorbus@btinternet.com](mailto:stbwindsorbus@btinternet.com) for further details.
- Students not entitled to free transport can buy places from the parents' group for the Windsor coach (estimate £720 per year) subject to availability.
